OUTLINE OF DEFENSE SHOWN

Diggs Will Rely Partly on Opposition to Form of Mann Law

CLAIMED DOES NOT COVER PRESENT CASE

Work of Securing a Jury for Diggs Progressed Rapidly Today

SAN FRANCISCO, Aug. 6.—The trial of Maury Diggs, ex-state architect, on the charge of transporting Marsha Warrington, a high school girl, to Reno for immoral purposes, was resumed today before Federal Judge Van Fleet. Eleven veniremen were passed yesterday subject only to peremptory challenge, and it was expected the jury will be completed by night.

The defense challenged Prospective Juror F. F. Harper for bias, and the prosecution challenged Frank Lewis, George Walcom was also taken from the temporary panel because of illness.

Before the noon recess each side had exercised half its peremptories. It is believed the jury will be completed before night.

The defense to some extent indicated it will rely on the prejudice against the Mann act. Attorney Coglian of the defense interrupted the examination of a venireman to argue that the Mann act was passed with the object of preventing the interstate transportation of women for purposes of commercializing their services.

For the first time since the trial began many girls recently dressed drifted into the court, eagerly catching their necks in apparent anticipation of sensational details and casting surreptitious glances at Diggs and Caminetti, where they sat by their counsel.

When the afternoon session resumed, eleven men were in the box. The examination of Lester Herriek, accountant, was then begun. Neither girl involved in the case was present, and not any of the defendants' family except Diggs' father, who sat impassively by his son.

When court adjourned yesterday afternoon there were eleven veniremen in the box who had been passed by both sides for bias. The prosecution has six peremptory challenges and the defense ten.

Seven of the eleven talesmen are married men with children, one is married but not a father, and the other three are single men living with their parents. All are substantial business men.

One of the jurors temporarily passed expressed a prejudice against "any married man who will abandon his wife and babies and run off on a spree with another woman" for the reason that such actions as have been reported in this case, "strike at the very foundation of the home." The juror said he could judge the guilt or innocence of Diggs, however, solely on the evidence in the case. He is Philip Woolsey, a manufacturer's agent, and is unmarried.

CANADIAN TOWN IS DEVASTATED BY FIRE

ATHABASCA, Sask., Aug. 6.—Athabasca's business district was destroyed by fire yesterday with a loss estimated at more than half a million dollars. Two hotels and thirty business houses were burned. Only hand-pump engines and bucket brigades were available for fighting the fire.

Several guests of the Grand Union hotel who were asleep when the fire broke out had narrow escapes. A constable who awakened them received severe burns.

HIGHWAY ROUTES TO BE DECIDED MONDAY

SACRAMENTO, Aug. 6.—The three state highway routing disputes upon which hearings were held in the governor's office last Friday, will be decided Monday next when the state engineering department advisory board is scheduled to hold a meeting in the Mills building at San Francisco.

The three disputes involve the routing of the highway from Sargents to Salinas on the coast line and from Fresno to Bakersfield and Bakersfield to Los Angeles on the interior line.

San Francisco Mayor Threatened With Recall

SAN FRANCISCO, Aug. 6.—The California Federation for the Suppression of Vice has sent a letter to Mayor Ralph W. Cameron intimating that a recall movement may be started against him for alleged failure to take steps to clean up the city. The federation claims the social evil has increased under Ralph's administration. It declares it will absolutely close all commercialized vice and divorce liquor from the dance hall inside and outside the "Barbary Coast."

Bulletins of News

Hot from the wire up to 3:30 p. m.

THE WEATHER
Fair tonight and Thursday; slightly warmer; light west winds.

Glass Bottle Blowers in Session
MARION, Ind., Aug. 6.—With delegates from all over the United States and Canada present, the Glass Bottle Blowers' Association of the United States and Canada met here today in annual session. Higher wages and better working conditions will be demanded of their employers if a resolution introduced is passed by the convention.

Contests for King George Cup
COWES, Isle of Wight, Aug. 6.—The King George Cup, the most coveted yachting prize of the empire, was the chief event of today's racing in the famous regatta which is attended by King George and Queen Mary, and King Alphonso and his queen.

Seven Thousand Knitting Women Strike
NEW YORK, Aug. 6.—Seven thousand women employed in east side knitting mills went on strike yesterday demanding shorter hours, higher pay and more sanitary working conditions.

To Arrange for Meeting of Postmasters
LOS ANGELES, Aug. 6.—Arrangements for the annual convention of the postmasters of California to be held at Avalon beginning August 28, will be made today at a meeting of the executive committee of the association to be held in Postmaster Harrison's office. The convention will cover a period of four days.

MULHALL'S ILLNESS DELAYS LOBBY PROBE

Excused Until Monday on Ground that He is Physically Unfit to Testify

WASHINGTON, Aug. 6.—On Mulhall's claim that he was physically unable to appear as a witness before the House lobby probe committee today, he was excused until Monday.

"If you compel me to testify," Mulhall told Chairman Garrett, "I will produce a physician's certificate showing I am unable to testify. I have been under the doctor's care for a week and cannot continue on the stand."

Mulhall asserted he has found fifteen more files of letters containing "important political information." He asked time to sort these, and the committee tentatively decided to send an assistant to Mulhall's home in Baltimore to assist in the work.

Chief Counsel Emery, of the National Association of Manufacturers, testified today before the senate probes. He was examined by the association's attorney, McCarter. There were frequent wrangles, the committee demanding that McCarter ask specific instead of general questions.

TWENTY-FIVE HUNDRED THROWN OUT OF WORK

Work Suddenly Stopped on Big Electric Project Near Grass Valley

GRASS VALLEY, Aug. 6.—The construction work of the Pacific Gas and Electric company, which has been in progress at Clinger Gap and vicinity for several months, has been discontinued. Word came last Saturday night to lay off all the men and to stop every expense in connection with the work. Twenty-five hundred men were employed there, and these were divided into seven camps that were located between Ragsdale and Auburn. A series of dams were being built and several tunnels through which water will run, constructed.

The order to cease work came as a surprise, as it was believed that the work would be continuous. Lack of funds to carry the work along is reported to be the reason for the suspension of operations.

HARVESTER MAN GRAMMAR FUNDS FALLS FROM TRAIN NOT ENOUGH FOR YEAR

Medill McCormick, Chief Actor in Peculiar Incident at Syracuse

APPARENTLY VICTIM OF SOMNAMBULISM

Found on Streets in Pajamas and Was Taken to Police Station

SYRACUSE, N. Y., Aug. 6.—Clad only in pajamas a man claiming to be Medill McCormick of Chicago fell from a New York Central train here. He was taken to police headquarters. The police were convinced he was speaking the truth when he went to the Yates Hotel and began telephoning to Chicago.

The man was arraigned before a justice and released.

A porter threw the man's clothes off here. He said the man arose soon after going to his berth, and apparently walked in his sleep.

STRIKE RIOTS IN CINCINNATI

CINCINNATI, Aug. 6.—Running battles between striking teamsters, sympathizers and the police yesterday ended in the arrest of over two scores of men, the damaging of an auto patrol wagon and what is believed to be the frustrating of an attempt to fire the plant of the Kroger Grocery Company, where the wagon men are out on strike.

Early in the morning hundreds of strikers and sympathizers gathered at the Kroger plant and according to the watchmen they overheard threats to burn the establishment. The watchmen sent a riot car into police headquarters. Sgt. Lemmick and a reserve squad of detectives and uniformed men were rushed to the place. When they neared the scene several revolver shots were fired upon the plant. When an auto patrol arrived it was stoned and the roof torn into shreds. This was a signal for the officers to get busy and with drawn revolvers and swinging their batons above their heads they charged the crowd. Fully 100 men fled into Eden park, close by.

Those who escape was cut off engaged in a hand-to-hand fight with the police. After a fierce struggle, in which the police were forced to use their clubs, twenty of the strikers and their sympathetic friends were arrested. Scarcely had the police returned to headquarters when Night Chief Stegner got another riot call from the same place. Taking his squad of night detectives and a squad from the Second district, the chief charged the mob from two sides. Fully two hundred men were assembled at the plant. They were scattered in all directions. The police succeeded in rounding up fifteen men, most of whom were taken from hiding places. These latter were also arrested after fighting several minutes with the officers.

Those who escape was cut off engaged in a hand-to-hand fight with the police. After a fierce struggle, in which the police were forced to use their clubs, twenty of the strikers and their sympathetic friends were arrested. Scarcely had the police returned to headquarters when Night Chief Stegner got another riot call from the same place. Taking his squad of night detectives and a squad from the Second district, the chief charged the mob from two sides. Fully two hundred men were assembled at the plant. They were scattered in all directions. The police succeeded in rounding up fifteen men, most of whom were taken from hiding places. These latter were also arrested after fighting several minutes with the officers.

NO MORE FAKES TO LURE ARMY RECRUITS

SEATTLE, Aug. 6.—Secretary of War Garrison announced today that "fake advertising" will be eliminated by the War Department. Flaring posters depicting scenes of tropical idleness and luxury for soldiers will be discontinued, and instead the government will make a plain statement of facts in its efforts to secure army recruits. It will advertise to teach men enlisting useful trades by which they may earn a living after leaving the army.

"I shouldn't like to use such a strong word as misrepresentation in speaking of those bill board posters," said the Secretary, "but I must admit they are misleading. I am planning radical reforms along those lines."

OREGON FIXES HOURS AND WAGES FOR GIRLS

PORTLAND, Ore., Aug. 6.—The Oregon State Industrial Commission today fixed maximum hours of labor for all girls under 18 years of age at 8 hours and 20 minutes a day, or 50 hours a week; they may not work after 6 p. m., and all girls between the ages of 16 and 18 must receive a minimum of \$1 per day except when arrangements have been made with the commission for apprentices or learners.

PROGRESSIVES FORM BODY FOR SOUTHLAND

Santa Ana Man Chosen First Vice-President of Important Body—Great Celebration Last Night

LOS ANGELES, Aug. 6.—At a conference of Progressives from all over Southern California, an organization was perfected for the eight Southern California counties. Lieutenant Governor Wallace of Los Angeles was elected chairman, and J. P. Baumgartner, editor of the Santa Ana Register, was elected first vice-chairman. The resolutions passed provide that other counties may affiliate with the organization. It is the plan of the association to work for the Progressive cause independent of the state and county organizations, yet with them on many matters. It has a work to do that will not conflict with the state and county organizations.

The main object of the association is to sustain legislation that is right. The association will enter the fight to prevent the state from going again into the control of the interests.

At the speakers' table with the governor were the chairmen of the Progressive county committees of the eight counties in Southern California, as follows: H. L. Carnahan, Riverside; S. J. Jackson, Orange; Phil D. Swing, Imperial; Charles F. Blackstock, Ventura; Dr. W. P. Burke, San Bernardino; Edgar A. Luce, San Diego; and P. H. Rice, Santa Barbara, together with Senator Lee C. Gates of Los Angeles county. Among the others at this table were Alexander McCabe, private secretary to the governor; Arthur P. Will, Edwin T. Earl, Marshall Stinson, Will H. Fischer, R. F. Fernald of Santa Barbara, W. A. Avey of Riverside, J. E. Keating of San Diego, Assemblyman James E. Cram of Highlands, Mrs. Frank A. Gibson, Mrs. Oliver C. Bryant, Mrs. Edwin T. Earl, Mrs. W. D. Stephens and Mrs. W. P. Burke of Redlands.

In his address Governor Johnson briefly reviewed the causes which were responsible for the organization of a national Progressive movement and recalled to his hearers those stirring times at the Republican national convention held in Chicago in June, 1912, when the California delegation led the Progressive delegates from all the other states from the hall and from all further participation in a convention which had deprived two delegates from California of their seats by the most high-handed political methods ever attempted in this country.

Tells of Achievements
The governor then referred to the first national campaign of the party and declared that notwithstanding it had gone down to defeat in that campaign it nevertheless had achieved an important victory in awakening in the minds of the people a sense of the righteousness of its cause. He touched upon the achievements of the Progressive party in the one short year of its existence and predicted with the utmost confidence its ultimate triumph, for the reason that the party's cause is the people's cause and the people can be depended upon to support those principles for which it stands, once they are brought home to them.

As evidence of this the governor pointed to the fact that there is no political party today that does not pretend to be Progressive and that no party today can hope to wield power that is not Progressive.

Speaking of the Progressives of California and the manner in which they have acquired themselves, the governor challenged any one to point to a single party pledge that had not been kept or a single promise that remained unfulfilled. "Progressivism," he declared, "has risen to every state problem and has solved the problem to the best of its ability. From now on the political alignment throughout the country must be reactionaries on the one hand and Progressives on the other. Whether the reactionaries write my epitaph or I write it myself matters nothing so far as this movement is concerned. Progressivism is founded on a rock and it will endure. No individual is necessary to its existence or its success."

Whole South Represented
It was "All Southern California Night," and from every county in the state south of the Tehachapi came delegations to assist the Los Angeles Progressives to make this occasion a great success. From Orange county came a delegation of fifty, led by S. J. Jackson, chairman of the central committee of that county. Riverside county sent ten and San Bernardino fourteen. The former in charge of H. L. Carnahan, and the latter under the leadership of Dr. W. P. Burke. Imperial, San Diego, Ventura and Santa Barbara were represented by from three to five Progressives each, all filled with that spirit which is making for a square deal for all the people and which is opposed to special interest and plutocracy in government affairs.

Almost prostrated by the terrific heat and lack of sleep the volunteer fire fighters and ranchers from miles around are still trying to check the flames and relays of volunteers were sent to their aid late today in automobiles.

The heat has been intense, ranging from 112 in the shade to from 128 to 140 near the fire line. The heat and the flames, which at times reach out a distance of 50 feet, has made the work extremely hazardous, but so far as known no lives have been lost, although many narrow escapes are reported. Several of the volunteers are reported to have been injured or burned.

The loss to cattle has been heavy, but the heaviest loss fell on the beekeepers. Many apiaries were wiped out and it is estimated that 700 stands of bees were destroyed.

One of the heaviest individual losers was Thomas Rawson, whose loss included livestock and ten miles of fencing. His brother, Louis Rawson, lost his home and all its contents. It was on the latter's place that the fire started when lightning struck a tree.

The area devastated thus far extends four miles north and south and five miles east and west. It has been impossible to ascertain the exact number of ranchers burned out but a dozen or more have lost their all.

The men battling against the flames are working under the supervision of State Fire Warden W. F. Rawson and Archie Daugerty, with Warden C. D. Dietrich looking after supplies and reinforcements at Hemet.

It is stated that Riverside county is the only county in the state that has made no financial provisions for fighting forest or brush fires and as the government reserve has not as yet been invaded by the flames, federal authorities can offer no financial assistance.

The quality of our goods is right. Money back if not satisfied. Change.

HEMET, Aug. 6.—Fully twenty square miles have been swept bare of vegetation and evidence of habitation by the brush fire which has been raging south of Hemet intermittently since Sunday afternoon, and all efforts to control the fire have been futile.

Almost prostrated by the terrific heat and lack of sleep the volunteer fire fighters and ranchers from miles around are still trying to check the flames and relays of volunteers were sent to their aid late today in automobiles.

The heat has been intense, ranging from 112 in the shade to from 128 to 140 near the fire line. The heat and the flames, which at times reach out a distance of 50 feet, has made the work extremely hazardous, but so far as known no lives have been lost, although many narrow escapes are reported. NO MEDIATION IS HUERTA'S STAND

Will Consider No Proposition Which Involves Treating With the Rebels

INTIMATES LIND'S MISSION IS USELESS

Rebels Attack Troop Train by Mistake and Bloody Battle Follows

MEXICO CITY, Aug. 6.—Any offer of mediation by America through ex-Governor Lind of Minnesota, who is coming here as the personal representative of President Wilson will be rejected according to President Huerta's reiteration today of his determination to maintain a hands off policy. He said:

"National honor and dignity will not permit interference. I won't treat with the rebels."

Regarding Lind's coming visit Huerta issued the following statement last night:

"The Mexican government is only concerned in bringing about peace. If, upon accomplishing this pacification, our government shall have been recognized by the United States we shall rejoice, and if not, we shall deplore it. But in any case, our attitude always will remain the same in defense of our national dignity and honor.

"As for the elections, they will be held in accordance with our laws. This government will, of course, reject all efforts, whether of friends or of outsiders, to mediate in our troubles, as we are strong enough to bring about peace at an early date."

REBELS AND TROOPS IN BLOODY BATTLE
EL PASO, Aug. 6.—Mistaking a federal troop train for a passenger train, which was carrying two million dollars to Chihuahua, Colonel Toribio Ortega, rebel leader, yesterday met a crushing defeat at Rancheria, sixty-five miles below Juarez. Ortega's losses in slain and wounded were more than 200, one hundred and fifty being slain.

The troop train was in command of Colonel Alberto Terrazas, the militant millionaire of Chihuahua, who had seven hundred volunteers and two machine guns. Terrazas lost sixty in slain and wounded.

Ortega, who with twelve hundred rebels had moved from his base at Guadalupe, when he heard of the train movement to Chihuahua, had counted upon receiving reinforcements from the west. The rebel plan, as announced by the junta here, was to prevent any of the supply trains from reaching Chihuahua. The rebels were lying in wait near Rancheria and permitted a troop train and two supply trains to pass, evidently planning to seize the passenger train and its wealth of cash and then use it to overtake the other trains.

Official advices reaching Juarez say the federalists, when attacked by Ortega's men in force, detained on the opposite side and using the cars as breastworks, opened fire at close range, completely surprising the rebels and slaying them by scores. The battle was a furious one for an hour, when the rebels retreated.

Previous to the report of the battle a dispatch had been received in Juarez from Samalayuca, some distance below Rancheria, saying that the passenger and supply trains had passed that point safely, but it is supposed now that the last troop train of the nine trains sent out of Juarez had been delayed and that it was the one attacked by Ortega.

Report Not Confirmed
WASHINGTON, Aug. 6.—The State Department announced today that it had received no information regarding the reported imprisonment of five American employees of the Pearson syndicate at Ciudad Chihuahua. Secretary Bryan is investigating.

President Wilson is marking time on the Mexican situation pending the arrival of Envoy Lind at Mexico City. Members of the senate foreign affairs committee denied they were angry over Lind's appointment, declaring the entire committee was consulted before the appointment.

Lind Doesn't Want Job
MINNEAPOLIS, Aug. 6.—Writing a friend here regarding reports that he will succeed Wilson as ambassador to Mexico, ex-Governor Lind declared before his departure as a presidential envoy that he will accept the post under no terms. He expects to complete his work there as rapidly as possible and then return to Washington.

PRESIDENTIAL NOMINATIONS
WASHINGTON, Aug. 6.—The President today sent the following nominations to the Senate: William I. Sawtelle of Arizona, to be federal judge for the Arizona district; Preston McGowan of Oklahoma, to be

NATION WIDE MOVEMENT TO IMPROVE POSITION OF FARMERS

Commission Finds Co-operation is Secret of Success in Europe—Invites Farmers to Join Movement

(Special Correspondence)

WASHINGTON, D. C., July 31.—A nation wide movement to interest the American rural population along financial, business and social lines, as a means to strengthen the position of the farmers, increase their income and their production and to lower the cost of foodstuffs to the consumers, was announced here today in a letter to the governors of the states, to the farmers' organizations, agricultural institutions and farmers of America from the American Commission on Agricultural Co-operation, which arrived from Europe on the steamer Cedric.

A report is later to be made to the governors of the various states and the farmers' organizations, agricultural institutions and farmers of America. The letter sent today discussed the general form of rural organization in the European countries visited by the commission.

The commission found that European agriculture was organized along co-operative lines and also found that the European farmers have apparent success in financial, business and social strength equal to that of the organized urban classes of capital and labor.

The commission has effected an organization with headquarters in Washington, D. C., with Senator Duncan U. Fletcher as chairman.

"Organizations for the provision of credit facilities for European farmers follow the natural division into short time personal credit and long time land-mortgage credit. The organizations for the provision of personal credit facilities are as highly developed as are the systems of commercial banking. The prevailing rate of interest paid by the farmers for short time loans, is from four to five and one-half per cent. The terms offered European farmers are generally better designed to meet the peculiar requirements of agriculturists than are the terms obtainable today by the American farmers.

"The personal credit organizations have the form of co-operative societies. Very often the members of these societies assume unlimited liability for the debts of the society while in other cases the societies take the form of limited liability. As a rule in European countries, the law makes little or no provision for exemptions of any kind. These short time credit societies furnish cheap, safe and elastic credit to their members by reason of their control by farmers and are organizations exclusively in the interest of farmers who operate them at nominal cost and without seeking dividend profit to such societies.

"Land mortgage credit has been organized so as to place a collective security back of bonds issued by land-mortgage societies in contrast with the system of marketing individual loans upon individual mortgages. With-out discussing the form of organization employed for this purpose, it may be stated that these land-mortgage institutions bring to European farmers low interest rates; the privileges of repaying loans in small fixed annual installments extending over a term of years—in some cases as long as seventy-five years under the amortization plan, although provision for earlier payment is made if the borrower so desires; protection from advance in interest rates; and the practical elimination of commission charges. Many of these personal credit societies and land mortgage associations are fostered by government grants, loans or special provisions of law. Mortgage bonds issued by commercial banks and by private joint stock land-mortgage banks sell substantially on the same basis with like securities issued by government favored institutions and both classes of banks are recognized as useful in the development and conservation of agricultural resources. In many instances private and commercial banks purchase the securities of land-mortgage associations. Experience has demonstrated that such land-mortgage bonds are liquid assets.

"The systems of land title registration in countries possessing such mortgage institutions practically prevent dispute of title upon mortgaged land. Provisions are also generally afforded these mortgage institutions which eliminate undue legal delays in the recovery of loans placed with defaulting borrowers. Savings and trust funds are frequently invested in securities of such mortgage institutions under protection of law. Loans up to fifty or even sixty-six per cent are made on lands of dependable value and are considered safe and conservative and compare favorably with provincial and government bonds.

Co-operation Increases Prices

"The organizations for production and distribution of farm products follow co-operative lines. Farm products are sold by the producer at a relatively higher price and are bought by the consumer at a relatively lower price because the cost of distribution is considerably lowered by co-operative marketing which results, also, in improving the quality and uniformity of farm products and in promoting more business-like methods in farming operations.

"It is the opinion of many of the leaders of this movement in Europe that the question of rural credit ought not to be divorced from co-operation for business purposes and the general organization of community life in rural districts. In some European countries visited, agriculture and country life interests generally are thoroughly organized and co-ordinated. The studies of the commission emphasize the necessity of defining the functions, on the one hand of the government, and on the other of voluntary organizations, in promoting the development of country life. In some of these countries great emphasis is placed upon the value of voluntary associations and such state aid as involves governmental control over the activities of rural organizations is deprecated as tending to stifle the initiative of the people.

Rural conditions, environment and temperament in Europe differ widely in the various countries and also differ from rural conditions in America, as conditions differ in our several states and provinces; therefore, it may be necessary, in some cases, to modify these European systems if they are to be adapted to meet the needs of American farmers. At the same time, co-operative effort among the farmers of America might well be more generally employed and the facts gathered should be of great value in developing methods suited to the needs of the farmers in the several sections, states, and provinces.

"To this end the American Commission with a membership in thirty-six states and in four provinces of Canada, has effected an organization with headquarters in Washington, D. C., and invites the aid and co-operation of farmers and all agricultural organizations and persons concerned in

EXTENSIVE PLANS TO FIGHT FROST BY LEMON GROWERS

RIVERSIDE, Aug. 6.—Perhaps the most extensive plans for the protection of citrus trees from possible frost damage so far undertaken in Southern California were revealed yesterday with the application of Arlington Heights Fruit Company for permission to cross certain streets in the city with pipe lines.

The English syndicate which has developed the magnificent property in the southern part of the city, known as Arlington Heights, will make provisions for the protection of 500 acres of lemon groves located on high lands and will do this by the installation of a 500,000-gallon storage tank above the level of the Gage canal and a number of smaller storage and distribution tanks.

The piping system will be most extensive adequate to feed a heater to each tree or a total of 50,000.

If the frost is to be an item to contend with at any time during the next decade, the company takes the view that it is wisdom to install a system at once adequate and efficient. It is estimated that such a system, consuming four gallons of distillate per tree for the season, would have saved the entire crop from the 500 acres last year. If so, the money required to purchase the 200,000 gallons of distillate for this protection would have been well spent.

WORRY A CAUSE FOR APPENDICITIS

Specialists at Johns Hopkins Say Cheerful Spirit is Important Preventative

BALTIMORE, Aug. 6.—To escape appendicitis and kindred disorders do not worry, but keep a smiling. The man with a constant frown is more likely to develop trouble with his appendix than the smiling man. The same rule holds for women, says the Johns Hopkins University hospital specialists.

Since January 1, seventy-one cases of appendicitis have been treated in the Hopkins hospital. Four of the patients died. That these deaths could have been averted and the number of sufferers confined to half the number treated by the simple process of smiling and being happy is announced by specialists in a bulletin.

The surgeons assert that many cases of the intestinal complaint can be traced to gloomy spirits. To those who insist on going through life with a frown the specialists say:

"Worry and you'll get a pain in the side."

From the Hopkins goes out the advice:

"Cheer up; the more you laugh the healthier you will be and the fewer aches you'll have."

According to the Hopkins surgeons mental worry is one of the most frequent causes of appendicitis—just as much of a cause as the lifting of heavyweights with its resultant strain, imperfect mastication is said to be one of the primary causes, and the bolting of food is generally a habit of the man who lacks the rosy view of life. It is the man who does not take the proper time for consuming his food who invites stomach trouble and incidentally appendicitis. The man who smiles at his table companions and joins in the general table talk is least susceptible.

SHOWER IS GIVEN POPULAR GIRL WHO IS TO WED TODAY

(By Staff Correspondent.)

ORANGE, Aug. 5.—Miss Flora Hull, who will wed Mr. Walter Taylor of Mapleville, Ill., tomorrow, was given a surprise shower last evening at the home of Mrs. F. V. Pruitt on North Olive street, where she had innocently accepted an invitation to spend the evening.

The shower was a miscellaneous affair and Miss Hull was the recipient of many beautiful gifts. A pink and white color scheme lent added charm to the pretty home and the evening was one of delight, spent with games and music. Each guest was given a number and instructed to hunt up a hidden package which bore a corresponding number. Their searching was rewarded with the finding of comic gifts which elicited forth much laughter.

Miss Hull was required to stand a test of efficiency concerning the duties of a housewife, and was given an examination by each guest. She "made good" by accomplishing the feat of making two sandwiches, sewing two buttons on her husband's vest and mending his gloves, all in the space of five minutes.

Miss Helen Cory, with instrumental music, and Miss Mabel Thornburg with vocal selections, were delectable entertainers.

Very dainty refreshments, in which the color scheme was carried out, closed the pleasant affair.

DANGEROUS COUNTERFEIT FIVE-DOLLAR PIECE FOUND

SAN FRANCISCO, Aug. 6.—The most dangerous counterfeit of the gold half-eagle, experts say, that has ever appeared in circulation in San Francisco, was taken in over the counter on Monday at the Bank of California.

At the close of the day's business two \$5 gold pieces were discovered. The delicate hand of the forger detected them as being light. Both pieces were of the so-called Roosevelt issue, with the Indian's head countersunk and the eagle in overalls, and both were obviously struck from dies.

The bogus coins were found by the mint assayers to be composed of gold, silver and copper, whereas the genuine \$5 gold piece contains no silver.

BAND CONCERT THIS EVENING

Hunter in Hills Near El Modena Killed a Coyote Yesterday Afternoon

(By Staff Correspondent.)

ORANGE, Aug. 6.—The opening concert of the weekly series of band programs to be presented during the next two months by the Orange band will take place this evening in the plaza. The concert will begin at 8 o'clock. A program of marches, overtures, intermezzos, waltzes and sacred selections has been arranged for the initial concert. The weekly musical programs should prove popular with the local public.

A. Crawshaw and family and G. G. Crawshaw and family left today for an outing at Newport beach.

Roy Perkins killed a coyote in the El Modena hills last evening while out hunting rabbits with his brother, Byron Perkins and Russell Kenyon.

The First Baptist Sunday School will hold its annual picnic tomorrow. The wagon will leave the church at 8 o'clock.

Mr. and Mrs. W. D. Granger and son Neil, and Miss Elsie Dean of El Modena, went to Catalina this morning for a vacation trip.

E. J. Leggett has purchased the M. E. Smith residence property on East Almond avenue and is preparing to move his family there.

Mr. and Mrs. C. B. Bradshaw returned yesterday afternoon from a two weeks outing at Arch Beach.

Mrs. C. N. Elliott of Indianapolis, Indiana, is visiting in Orange at the home of her sister, Mrs. J. P. Donovan.

Rolph Woods has resigned his position with Hill, Carden and Company of Santa Ana and left this morning for Avalon, Catalina, where he will assist County Superintendent R. J. Hamilton in the management of the County Y. M. C. A. Camp. He will remain probably until the end of the month.

W. H. Riley of Los Angeles was in this city on business yesterday.

Mrs. Maud H. Dean, Andrew Getty, D. L. Anderson and F. Anderson of Santa Ana visited with Mrs. John Johnston at El Modena yesterday.

Willard Smith and Geo. Adams left Monday for Bear Valley to spend a few days.

Mrs. E. W. Bollinger and family motored to Long Beach Monday for a visit with Mrs. Bollinger's father and mother, Mr. and Mrs. J. M. Douley. They returned last evening.

Mr. and Mrs. James Barnes of Belvidere, Ill., are visiting with the Frank Lord and J. G. Lucas families. They were school friends in the east.

About thirty members of the Royal Neighbors' camp spent yesterday at Newport Beach, and report a very pleasant time.

Misses Anna Ralph, Arline Davis, Katherine Bradshaw, Margaret Palmer and Phyllis Bae, left this morning for Black Star canyon on a camping trip.

Mrs. Frances Paine, Rev. Agnes Ralph, Mrs. C. H. Frasier and Mrs. C. G. Ramsey have returned from Huntington Beach where they spent Monday and Tuesday at the W. C. U. convention.

Miss Elsie Vogel visited here from yesterday afternoon until this morning with Miss Flora Lehanan. She is on her way from San Diego to her old home in Mankato, Minnesota.

W. E. Finley and family have moved from North Olive street to 436 South Grand street.

IRISHMEN WARNED AGAINST JOINING BRITISH ARMY

DUBLIN, Aug. 6.—The police authorities today admitted that they have been unable to find the slightest clue to the authors of the leaflet warning young Irishmen against joining the English army or navy, with copies of which Dublin has been flooded in the past few days. A copy has been found in the private letter box of nearly every residence in town.

After declaring war between England and Germany is inevitable and that "England's cowardly and degenerate population will not fight," and that "she depends on the services of fools in Ireland," the leaflet, which is signed "Vigilance Committee," says:

"Stand aside and have your revenge. Without Ireland's help England will go down before Germany as she would have gone down before the brave Boers had the Irish not fought England's battles in South Africa. The English know this and they have offered us a bribe which is 'called Home Rule. It is not yet a law, but, believing us to be a nation of fools, she wants payment in advance and has sent her warships to our coasts to entrap young Irishmen. Generations unborn will curse you who now join England's army or navy, and not alone the dupes who join, but also those who neglect to aid in the crusade against the most immoral army and navy in the world."

ALL NATIONS' PARADE THROUGH PANAMA CANAL

WASHINGTON, Aug. 6.—Plans for the greatest naval pageant the world has ever seen were among the topics discussed by Secretary of the Navy Daniels upon his return here today. The secretary plans to invite all the nations of the world to send the major portions of their fleets to Hampton Roads, Va., in February, 1915, and then to pilot this vast fleet through the Panama Canal and up the Pacific Coast to Los Angeles and San Francisco.

Y. M. C. A. ON WAY TO CAMP

Left This Morning for Two Weeks' Stay at White's Landing

"Holla! Balloo! Kah Zip! Kah Zip!" "Holla! Balloo! Kah Zip! Kah Zip!" "Zip Boom! Boom!" "Orange County Y. M. C. A."

The above is the official camp yell that started off the younger boys of the county for the annual Y. M. C. A. camp at White's Landing, Catalina Island. The younger boys, that is, those ranging from 12 to 16 years of age, left this morning at 6:30 by auto truck from the high school building. From Santa Ana they went to Garden Grove, where the boys from that place were taken on board. Then they were taken to San Pedro, where they boarded the steamship Cabrillo for the glorious ride to the island. At Avalon a fine glass-bottomed power boat carried the large crowd of campers and their belongings four and a half miles north along the coast to the camp, where eighteen or twenty tents are provided for the boys.

About forty boys went from each of the three counties, Los Angeles, Orange and San Bernardino. The sections from each county met at San Pedro. Those going as leaders from Orange county were R. J. Hamilton, county secretary; Glen Tidball, P. C. Whitely and Nelson Veenhoeten, all of Santa Ana; George and Ben Oertley of Garden Grove; Leland Thurston of Villa Park and Will Anderson of Long Beach. The boys from Santa Ana are as follows: Donald Winans, Donald Smith, Donald Anderson, Jamie Anderson, Homer Anderson, David Anderson, Harry Davis, Wesley Jayne, Harold Finley, Keith Davis, William Burge, William Tidball, Walter Scott, Frank Andrews, John McCune, Perry Thomas, Cassius Paul, and Timy Janar. From Anaheim they are as follows: Paul Todrick, Charles Pearson, George Littlefield, George Kemp, Ralph Kemp, Ralph Goodale, Harold Goodale, Irving Quarten, Joe Elliott, Alvin Wiens, Donald Peterman, Fay Davidson, Howard Timmons, Ed Timmons, William Rabb and Edmond Edwards. From Orange they were Earl Granger, Clyde Spotts and Robert Campbell. From Tustin they were Paul Jones, Gene Wilkins and Lee Kenyon. Ernest Thurston and Wallace Walls went from Villa Park. Malcolm Wharton and Chester Sherman went from Garden Grove. La Habra furnished Lee Morris and Ellwood Prout and Stanton sent Robert Doss.

There are still a few vacancies left in the older boys' camp which leaves on August 20, but these will be filled rapidly in the next week or two, so that any one intending to go must send in his application at once. They may be turned into Harold Henshaw or Chauncey Pond at the Register of office or to Martin Warren at the post-office, during the absence of R. J. Hamilton at the younger boys' camp.

7,000 PHICIANS GATHER IN LONDON FOR CONVENTION

LONDON, Aug. 6.—London's normal quota of doctors was increased by over 7,000 today when the world's greatest specialists gathered at Royal Albert hall for the opening of the seventeenth International Congress of Medicine. Practically every country in the world was represented when Prince Arthur of Connaught welcomed the delegates on behalf of King George, and during the next ten days twenty-three sections will discuss "all the ills to which the flesh is heir."

Sir Thomas Barlow, King George's principal physician, is chairman, and among the delegates are Professor Harvey Cushing of Harvard University; Surgeon General Charles F. Stokes, U. S. N., and Col. William C. Gorgas, and Major Frederick F. Russell, U. S. A. Professor Cushing will lecture on surgery as affecting the brain, on which he is reckoned the world's leading expert, and Surgeon General Stokes will deal with "Hospital Ships and the Transport of Wounded." Col. Gorgas will read a paper on "Sanitary Organization in the Tropics," on which subject he will be followed by Col. Hoiler of the British Indian Medical Service, Dr. Heinze of Berlin, and Sir Ronald Ross of Liverpool. "Anti-Typhoid inoculations" is the subject chosen by Major Russell, who will be followed by Sir William Leishman of the British Royal Army Medical Corps.

Under the general head of "History of Medicine" many experts of wide repute will submit papers of diverse interest. Dr. Norman Moore, who is president of the section, will describe the early history of St. Bartholemew's Hospital, London, and Dr. W. S. Coleman will talk on the beginnings of St. Thomas' Hospital, London. Sir William Osler, of "too old at forty" fame, will contribute a paper on the earliest printed medical books, and Dr. Raymond Crawford will discuss the Plague of Athens. Dr. Arnold Chaplin will lecture on "The Last Illness of Napoleon Bonaparte." The section on Tropical Medicine and Hygiene will discuss plague, beri-beri and relapsing fever. Its researches are expected to prove of utmost value in the treatment of tropical diseases. The deliberations of the section devoted to Forensic Medicine will deal with the psychology of crime, the cause and prevention of suicide and the habitual inebriate in relation to civil and criminal responsibility.

A remarkable feature of the congress is a museum comprising some 60,000 specimens, illustrating the diseases of the people of all nations and the discoveries that have been made in their treatment. It is the first dis-

CURRENCY BILL FASSES COMMITTEE

Measure Will Go Through House Easily, But Senate Promises Trouble

WASHINGTON, Aug. 6.—The long-drawn-out battle in the house banking and currency committee was ended yesterday, when the administration plan for monetary reform was adopted by a vote of 11 to 3. The plan will be laid before the Democratic caucus next Monday afternoon with the solid backing of every Democratic member of the committee except those three who cast their fortunes with Representative Henry of Texas.

Before adopting the bill finally, Chairman Glass was instructed to prepare an amendment providing that national banks shall have the right to act as trustee in land and mortgage transactions. A rocky road seems to lie ahead of currency legislation in the senate. Senator Hitchcock announced his opposition to any action at the present session of congress.

Minister Praises This Laxative

Dr. H. Stubbins of Ashton, has, in praising Dr. King's New Life Pills for constipation, writes: "Dr. King's New Life Pills are such perfect pills no home should be without them." No better regulator for the liver and bowels. Every ailment cured. Try them. Price 25c, at all druggists. Advertisment.

MOTORCYCLE DASHED INTO AN AUTOMOBILE AT STREET CROSSING

Driver of Motorcycle Says He Was Not Watching Ahead When He Struck

Yesterday afternoon a motorcycle driven by C. F. Whipple and ridden by him and Elmer Dickinson collided with an automobile driven by Mrs. Ella H. Smith and occupied by Mrs. Smith and Mrs. Stearns and daughter of Tustin and W. W. Martin of Long Beach. Dickinson had his ankle slightly sprained. No one else was hurt. The steering gear and one lamp of the automobile were put out of commission.

The motorcycle was going east on Third street and the automobile south on Birch. Whipple said that he was looking toward the next street, where he was to stop, and did not see the automobile until it was too late to deviate from his course or stop. He said he would pay for the damage done the automobile.

Studebaker

Six Cylinder Has Arrived

THE STUDEBAKER "SIX" TOURING CAR marks the most advanced stage in the development of six-cylinder design. It brings within reach of a moderate income those advantages of flexibility and smoothness in which a good six-cylinder motor excels.

The driving power of this car is characteristic. The pull of the silent motor is steady, even and flexible. When slowing down in traffic the "Six" responds to the throttle with remarkable ease, while on the roads the continuous flow of power from the six cylinders gives an uninterrupted smoothness to the motion of the car. The "Six" motor is not only powerful, it is also simple, well-nigh frictionless and highly efficient.

The Studebaker "Six" is a luxurious car. It is, of course, electrically started and lighted. The six-passenger body is commodious and convenient, with deep, restful cushions and complete equipment.

The long wheel base, ample tires and easy, resilient springs make the car exceptionally comfortable.

THIRD OF FROZEN WIND

For years no evening function has been deemed properly conducted unless ice in some form appeared on the menu of the midnight supper. The argument in favor of the frozen dainties was that dancing young people demanded coolness for their panting palates. And so, from time immemorial, vanilla, chocolate, and strawberry ice cream, and orange and lemon ice have frozen the "tummies" of society.

It is pleasant to note that at some notable social occasions this summer, the entertainers broke away from this refrigeration process and served instead, eggs and toast and coffee. Moreover this supper was really relished, as it followed hours of strenuous dancing of the popular athletic steps.

Recently a dance given by one of the most lavish entertainers in New York society, lasted so far into the morning that buckwheat cakes and sausage were served to the dancers loath to leave. The spectacle of men and women in the present style of evening attire, wrestling with syrup and gravy must have been edifying from the standpoint of "difference."

While it was not stated that the purpose of the hostess was to chase her guests, certain it is that even the most ardent devotee of Terpsichore would not care to linger to indulge in the Tango or the One Step after such a meal at five in the morning. With considerable curiosity society awaits the next development in its dietary regimen, provided by entertainers in quest of novelty.

PUBLISHERS AT \$12.00 PER

A recent speaker before the Missouri Press Association remarked that there are in Missouri three hundred publishers who do not make over \$12.00 per week. Nearly states have proportionate numbers who make no more, he said. They work seventy to eighty hours per week.

When the followers of so fine a profession as journalism are, to a large extent, so poorly paid, some grievous fault exists. Is it the editor's fault or the public's? It can hardly be the latter's, in these days when the farmer drives a motor car, when painter and carpenter earn fifty to one hundred per cent more than a few years ago.

The editor, like the farmer, has prided himself on his individuality. The farmer plants himself on the sod of his farm and glories in kingship over all he surveys. Similarly the editor feels that his smeared type cases and dusty desk are a little empire all his own. The paper may be smoochy, its columns made up with a shovel, but it is "his," and not all the Rockefeller can change it.

This defiant isolation has been picturesque. In some places it has heroic elements, when the editor speaks out in meetin' for things that to him seem good and true. Most of the time it has meant simply that his children have quit at the high school, while the other fellow's went to college.

There will never be trusts in the newspaper business. But the publisher who sells his space and his information service for prices that leave him stranded in the remotest back eddies of prosperity is a fool, and he knows it better than any one else.

The State Press Associations should take up the problem of giving the country editor an adequate reward for his incalculably beneficial service, but he must stand up in his boots and demand his own rights like a man.

Editorial Edibles

The Rev. John Thompson, of Chicago, classes David and Solomon among the undesirables. Unfortunately, it is too late to get the opinion of those departed worthies regarding the Rev. John.

Too many people spend today what they hope to earn tomorrow.

It is always too early to rip but never too late to mend.

Secretary Garrison evidently believes that we should trust in God and keep our powder to ourselves.

William Rockefeller's complete recovery is the first notification given that Pijo investigating committee has adjourned.

While the Monroe Doctrine continues in business at the old stand, Uncle Sam begs respectfully to in-

form European powers that it will be defined and applied from Washington, not from any foreign capital.

Still, were we in Turkey's place we should leave the shifting frontier alone and attend strictly to the oriental rug business.

Yes, Annabelle, the correct canoeing costume is a cork jacket and an accident insurance policy.

A New York confidence man died without letting his real name be known. A humble confidence man cannot be expected to take the pride in publishing the story of his life that workers in the higher walks of crookedness are displaying.

And they keep on lecturing Bryan, but don't want him to lecture.

The power of suggestion is again demonstrated by the split in the Rochester, Pa., council, caused by the divided skirt.

Controversies between railroad managers and their employees are seriously complicated by abnormally stiff necks.

It may confidently be expected that Secretary Garrison will find several army posts that are fit for nothing but kindling wood.

BAER DENIES INTENT TO RESIGN POSITION

Los Angeles Tribune. John Willis Baer, president of Occidental college, who has just returned from a trip through British Columbia, yesterday issued a statement in denial, which should once and for all put at rest recurrent rumors to the effect that he has been planning on leaving the local educational institution for a position at the head of an eastern college. The statement is as follows:

"In view of the rumors that I am considering a call to an eastern college, let me say that such is not a fact. It is true that in the last three years three institutions have made proposals, and that during the last three months some talk has been made in the east about my accepting a diplomatic position next January. All this is disquieting, and it should be contradicted in no uncertain way.

"Not for one moment did I consider seriously accepting the presidency of any other college. There is not any foundation whatever so far as I know for the rumor about a government position. Nor am I going to Australia for six months starting in March, as has been advertised. I was invited to be the guest of the Australian and New Zealand Christian Endeavorers, but have decided that cannot spare the time to visit the island continent, much as I appreciate the honor and kindness.

"Please do me the favor to say in print that I am happy right here and am more absorbed with my work in connection with Occidental college than ever. Notwithstanding the progress made possible by friends and patrons, my work at Occidental college has only begun. There is much to do and all I ask is that I have the privilege of living long enough to see Occidental come to its own.

LANKERSHIM BANS BEET PULP LOS ANGELES, Aug. 6.—Notice was yesterday served upon the Northern Pacific by Deputy District Attorney John Richardson to discontinue receiving shipments of beet pulp at Lankershim. The notice was served after an investigation by Deputy Richardson and County Health Officer Sawyer.

Buy a Straw Hat at Half Price

W. A. HUFF

WOMEN'S FADS AND FANCIES

By Margaret Mason

NEW YORK, Aug. 8.—The sports maid is always tailor-made. Whether she drives a golf ball about the links or a motor car about town; whether she sends the ball over the tennis net or her mount over a fence; whether she brings about her trig little sail boat or brings down a bird on the wing, she must be appropriately garbed to be a winner.

Diana may have been a mighty huntress, but she was a mighty poor dresser. No self-respecting, up-to-date partygoer or pigeon would let itself be ported by a lady in a veil, a crescent and a pair of sandals. When the huntress of 1913 goes out to stalk her prey and shoot things up considerably, she wears a smartly cut Norfolk jacket of dark or mixed material, a short, plain skirt, high laced boots, a soft felt hat, turn over collar and masculine tie. So trim and jaunty does she look that all fowl and fauna, including the human male, sit around her fascinated, panting to be shot.

The proper garments for a game of golf are realized in a trim white linen skirt, Shetland sweater, low turn collar and tie and a rolled brim Panama. A white linen blouse or middie suit with white canvas ties and white hose topped off with a gay-hued tam-o'-shanter or a bright scarfed linen middie hat, are the salient features of the sassy sartorial sailor.

The most courted damsel on the tennis court is she who is becomingly and at the same time sensibly appareled in a white flannel skirt, soft white flannel or linen blouse with wide rolling collar, flowing tie, a brimmed white sports hat and white hose and tennis shoes. Thus attired she is sure to have herself and her racket well in hand.

The horsewoman who gallops away with sartorial honors must be correctly habited down to the minutest detail. Even the wrong pin in the correct white stock can make her come a sartorial cropper. Since the side-saddle is no longer the correct form the habit for the cross-saddle alone

needs deep consideration. A smart model of black and white chevrot has the regulation breeches topped by a knee length coat severely plain though slightly belled. Black boots and a black straw sailor with either a white or black band are worn. White chamois gloves, a linen or madras wash silk shirt of masculine cut and a stock of madras tied as a four-in-hand and plumed with a plain bar are the correct accessories.

Oxford gray or black chevrots or moltons are always good and conservative materials for formal habits, but for extreme hot weather riding informal habits of crash linen or khaki are worn. With the lighter habits tan boots are good, but the plain straw sailor, either black or white, is the mandate of correct equestrian togethery.

The chic motor maid is enveloped in a long coat of either tan linen or pongee. It is plain of line and belted in the back. Her face is protected with goggles and one of the new har- mon motor veils and a soft brim hat of stitched silk or linen fits closely down over the head and seems to have ousted the ubiquitous bonnet from its perch.

For the complete and sweet angler who lands more hearts than fishes, a short skirt of tweed, high boots, a soft mannish shirt and sweater and a broad brimmed Panama are the catchy features.

For the lass who wins in a walk, good stout comfortable laced boots are the essential foundation of her outfit. An ankle length skirt of light weight serge, a sports coat of green or cerise ratine are swaggar. A veritable masculine walking stick adds the last touch to this get-up for a female Edward Payson Weston.

There you have just what to wear. To ride or walk or sail; To golf, or top the tennis net; To shoot the timid quail; To motor nady o'er the sea; To climb o'er hill and dale; To amble in the babbling brook, And snare all creatures male.

SPECIAL WASHINGTON LETTER

By Burton K. Standish.

WASHINGTON, Aug. 6.—The tempest of criticism which arose when Secretary of State Bryan declared that he couldn't live on the \$12,000 yearly salary he receives as head member of the President's cabinet and that he was compelled to augment his salary with receipts from his chautauqua talks, calls to mind the fact that there are quite a number of "chautauqueters" held involuntarily in Washington this summer. And worse still for these erstwhile platform charmers, it is generally conceded here now that the extra session of congress will continue right on through the chautauqua season until the latter part of September—if not later—thereby putting a disconcerting and jagged dent into the planned incomes of a good many public men.

While all of the men of official life in Washington who every summer add considerably to their incomes via the chautauqua route, do not command the big prices Secretary Bryan does, they manage to make enough by their lectures to pay a lot of bills and still have quite a nest-egg left over. Secretary Bryan is said to be the highest priced lecturer on the circuit. He is reported to get between \$200 and \$300 every time he raises his voice in silvery toned oratory before a chautauqua audience. Other chautauqueters of the congressional and statesmen set, it is declared, command on the average of from \$100 to \$200 per lecture.

Senator Bob LaFollette and Speaker Champ Clark are close on Secretary Bryan's heels in the matter of popular esteem as lecturers. Both these gentlemen are among the marooned in Washington. Both, when it was seen that congress would drag along from now on and some of them

acting just like the office boy does when the boss tells him he can't go off on that cruise or camping trip he had looked forward to with such pleasurable anticipation.

Whip J. Ham Lewis and Majority Leader Mann are the Simon Legrees of this summer session of the national legislature. Hardly a day passes that some Democratic Senator doesn't go to one of them with a long tale of woe about breaking down and needing just a week or just a few days of rest and relaxation. But Senators Kern and Lewis were well chosen for their task. They can rip into an excuse or a plea, tear it to pieces and cast it smashed and mutilated to the floor without the flicker of an eyelash while some beseeching fellow member stands pleading for a slight recess almost with tears in his eyes. Not a senator in Washington today who has suggested a brief vacation only to be sternly rebuked but believes that somewhere back in the past, Kern and Lewis could find an ancestor apiece who was either a slave driver or commander of one of the ancient slave galleys.

Nearly a score of senators, clinging to the hope that congress would get through in time, made bookings for trips to Europe, fixing their sailing dates late in July or early in August. All, without exception, have had to cancel them. The only thing left for the solons are week end trips and moving picture shows. And the week end trips about Washington are mighty few and far between.

Yes, it's a hard life, this being a statesman. The baseball games are about the only thing to amuse these hard-worked, perspiring, tariff-making legislators. There is some talk here of passing a law forcing the Washington team to play all its games at home whenever there is a summer session of the legislature.

WYOMING TOWN IS SWEEPED BY CLOUDBURST

DENVER, Aug. 6.—Brief messages here say that Soshone, Wyoming, has been swept by a cloudburst. Several are believed to be dead. Water is two feet deep in the streets. There was heavy damage in the business district.

Smith specializes on driving and saddle horse-shoeing. 407 North Birch.

SOCIETY

Happy Hour Club

Yesterday afternoon Miss Imogene Tillotson of West Third street, was hostess to the Happy Hour Club. Dainty needlework, conversation and music passed the afternoon most pleasantly. Delicious ice cream and cake were served. Those present beside the hostess were: Misses Amy Bent, Florence Brace, Minnie Wild, Hazel Rowley, Mabel Blodgett; Mesdames Sutton, Tillotson and Arthur Humphrey.

—O—

Entertained Bridal Couple

Mr. and Mrs. G. W. Wells of 1118 West Third street, entertained yesterday in honor of Mr. and Mrs. Ed Abbott, who returned yesterday morning from an extended honeymoon spent in Northern California. Mrs. Abbott is the daughter of Mr. and Mrs. Wells and was married to Mr. Abbott on June 27.

Beautiful decorations of pink roses and greenery were used in the parlors and on the dining table. The luncheon was a delightful four-course collation.

Covers were laid for Mr. and Mrs. Glenn Wells of Arizona, Miss Cora Wells, Mr. and Mrs. J. C. Stearns, Ray Lambert, George Wells, Mr. and Mrs. G. W. Wells, and the honorees, Mr. and Mrs. Abbott.

Mr. and Mrs. Abbott expect to reside in Orange, where the groom has a lovely home for his bride. Mr. Abbott is the principal of the El Modena school.

—O—

Entertains for Visitors

A very pretty afternoon party was given yesterday by Miss Schalkkamp at the home of J. J. Van Wyk at 1149 French street in honor of Miss Fisher of Orange City, Iowa, and Miss Mickey of Portland, Ore., who are visiting in Santa Ana.

Beautiful decorations of pink roses and geraniums were profusely used in the parlors and on the dining tables. Games, guessing contests and jolly conversation made the afternoon pass away very rapidly. Delicious refreshments were served at 5 o'clock by the hostess. They were fruit salad, cheese wafers, olives, ice cream, cake and mints.

Miss Schalkkamp's guests were: Misses Zoe Glidden, Ida Hanning, Esther Hanning, Daisy Williams, Lucy Williams, Annis Snow, Gertrude Snow, Mrs. Russell Coleman, Misses Ruth Hill and Blanche Irvine.

—O—

Honors Departing Friend

The last of a series of delightfully informal evening parties in honor of Miss Rose Mickey of Portland, Ore., who has been visiting in Santa Ana for some time, was held last evening at the home of Miss Nene Summer at 410 West First street. Miss Mickey is a talented musician and has made a host of friends during her stay here who are sorry that her visit must end on Friday when she leaves for her home in the North.

The evening was very informally and pleasantly spent. Refreshments of delicious punch and wafers were served by the hostess.

Those who enjoyed the evening were as follows: Misses Ruth and Edna Deardorff, Winifred Huser, Virginia Johnston, Ruth Hill, Elsie Harrison, Zoe Glidden; Messrs. Lloyd Sharp, Ernest Phillips, Robert Paine, Ed Hunt, Frank Hill, Leslie Sumner, Frank Ward, and the honoree and hostess, Miss Mickey and Miss Summer.

—O—

Informal Whist Party

A few neighbors were informally entertained last evening by Mrs. A. J. Padgham at her home on East Ninth street. Two course refreshments were served. The guests enjoyed some excellent music and jolly games.

—O—

Farewell for Missionaries

A farewell reception was given last night at the First Presbyterian

church in honor of the Rev. and Mrs. E. W. Koons, who are returning to their mission field in Korea after a furlough of a year spent in the United States. Rev. and Mrs. Koons have been visiting Mrs. Koons' parents, Mr. and Mrs. F. S. Donaldson, at 1002 South Main street, and leave next Friday for San Francisco where they will take the steamer for Korea on August 12.

The reception last night was given by the missionary society of the church and consisted of a short program and informal gathering. Miss Elsie Harrison sang a beautiful solo and Miss Nancy Elder played an excellent piano selection. Rev. Stevenson, in behalf of the church, spoke a few words in farewell. Mrs. W. W. Anderson, president of the missionary society, presented Rex and Mrs. Koons with a beautiful souvenir spoon with a picture of the church engraved upon the bowl. Refreshments of fruitade and wafers were served.

AMUSEMENTS

At the Mirror

A laugh a minute is what Manager Bond guarantees, and Mulligan and Schultz are equal to the task. "The Irish Lord" is the title of the bill and Mulligan is playing the title role. Schultz is playing the part of an inventor, and between the two the audience is kept in one continuous uproar. Miss Stella Mayfield as Mrs. Mulligan, also comes in for a number of laughs, while Miss Vinal as Miss Vanderbilt, and Karl Keene as her legal adviser, complete one of the funniest bills of the season. This, with two reels of unusually good pictures, completes the program at the Mirror this week.

"Doc" Roberts Buys Another Moving Picture Theater

Manager "Doc" Roberts of the Bell and College of Music, has purchased all rights and interests in "The Princess," a very pretty moving picture house at Ocean Park, and takes full possession today. The show house is located just two doors north (to the right) as one passes down Pier avenue, from the Trolley-way to the ocean, and is centrally located right on the ocean front and where all of the sight-seers pass, the great new pier being just one block to the left. This new theater is one of the many buildings but recently constructed on the sight of the big fire some months ago, and the show house was built expressly for the purpose that it is used for, comfort and safety being among the vital points carefully looked after. Among picture men, it is considered one of the best bargains of the season, and as "Doc" has a nice little home only a few blocks from the Princess, and now that the summer season is at its height, with the winter tourists coming later, the outlook is promising, and of course a. of the many friends of "Doc," the pioneer picture man of Santa Ana, will receive a hearty welcome when they drop in at the Princess at Ocean Park. The duties of the new enterprise will require considerable of "Doc's" time, so for the present, and until the fall season opens here in Santa Ana, the Bell will be closed, during which time considerable changes will be made, and at the College of Music big special attractions will be presented from time to time on other nights excepting Thursday and Sunday.

Tustin Frost Protection League

At a meeting of the Frost Protection League held recently, the following resolution was unanimously adopted:

"That all persons wishing to join the League should do so not later than Saturday, August 16th, after which date no new members can be admitted."

J. H. H. LIPPIATT, Sec'y.

Attend Orange Co. Business College.

Strictly home made bread and pastry. Delivered. Call Murphy, 492J.

Personals

Mr. and Mrs. J. G. Morrow have returned from Banning, where they have spent the past six months. They are at present staying at the home of Rev. J. A. Stevenson, but will occupy their home on North Main street some time next week.

Mr. and Mrs. Geo. Mills, Mr. and Mrs. Tulsom and Miss Laura Walker of Garden Grove are leaving for San Diego. They will auto down and will visit Old Mexico, Tia Juana and other places of interest before returning.

Mrs. L. R. Klatt boarded the Santa Fe train this morning for the east where she will visit relatives and friends in South Dakota and Minnesota.

Dale Peters leaves his position today as book-keeper in the Farmers & Merchants Bank to accept the place of assistant cashier in the Fillmore State Bank at Fillmore, Cal. He will take up his new work Monday and his many friends are glad to hear of his advancement.

Mrs. Chas. T. Havens of 1017 West Fifth street returned yesterday from Aliso Beach near Laguna, where she has been visiting her relatives, Mr. and Mrs. Boon Morris, and family from Holtville, who are camping at the beach for the summer.

ANAHEIM PERSONALS

ANAHEIM, Aug. 6.—Miss Marie Harris of Santa Ana, who has been spending the week-end at the home of her cousins, Misses Hazel and Ruth Lemon, returned to her home yesterday. The three young ladies were members of a house party at the home of their uncle and aunt, Mr. and Mrs. John Hickey, of Orange. An interesting feature in connection with the house party is that they made daily automobile trips to interesting points, including Laguna, Elsinore and the Modjeska ranch.

Miss Helen Horner, a cousin of Mr. and Mrs. Harry C. Inskeep, returned to her home in Los Angeles today after spending several days visiting relatives in this city and Fullerton.

Mr. and Mrs. Francis P. Reding returned today from a short honeymoon trip spent at San Diego.

STUDEBAKER "SIX" HAS ARRIVED

Fred Ross, manager of the Wm. F. Lutz Company's automobile department, is exhibiting a very handsome model of the new six-cylinder Studebaker, the first one of these cars to arrive in Santa Ana. The Studebaker "Six" is beautiful in design and luxurious in all its appointments. It is built on generous lines and of course electrically started and lighted. Its principal feature, however, is its smooth running qualities.

CLOUDBURST IN ARIZONA

GLOBE, ARIZ., Aug. 6.—A cloudburst showered hail over Miami yesterday in a record storm for this district. The baseball park was wrecked. Occupants of dwelling houses fled into the streets, fearing the collapse of buildings. Telegraph poles were thrown across railroad tracks. Runaway horses added to the general confusion.

Fascinating Music

When conversation lags how nice it is to "turn on the Phonograph" and give yourself and friends the best of instrumental or vocal music the world has to offer.

A very small sum of money will place an Edison Phonograph in your home.

DECIDED TO BUILD BRIDGE

Structure 260 Feet Long of Concrete Across Santa Ana River is Planned

Today the County Highway Commission decided to build a concrete bridge across the Santa Ana river at the Talbert road crossing. The bridge will be 260 feet long. Engineer Halliday was instructed to prepare plans and specifications for it.

It was also decided to put some kind of wearing surface across the West Fifth street bridge.

Arrangements have been made to purchase sand and gravel from F. M. West's pit at Fullerton for use in constructing the Orangeflorpe road. The price is twenty-five cents a cubic yard, which is a good deal less than it could be delivered otherwise.

BAND CONCERT TO BE AT BIRCH PARK

TONIGHT 8 O'CLOCK

The second concert by the Santa Ana Band this summer will be given tonight at 8 o'clock at Birch Park, under the leadership of C. C. Langley. The program for tonight follows:

Our Republic (march).....Bagley
Superba (medley overture).....Dalby
The Love Dance (Madame Sherry).....Hoschna

Among the Lilies (Caprice).....Frey
Spring Maid (Waltz).....Williams
Burgmaster.....Lundero

It is estimated that there was an attendance of 4000 at the concert last Wednesday evening.

CONTRIBUTIONS FOR THE EXHIBIT ROOMS

The following list shows recent contributions to the Santa Ana Chamber of Commerce and the articles contributed:

C. H. Whitney, San Joaquin Ranch, large table beet; H. V. New-same, Garden Grove, four-foot branch, Burbank plums; M. A. Thompson, Garden Grove, Green Bell Peppers; L. K. Strong, 419 West Seventeenth street, city, Tomatoes, one weighing 22 ounces and 15 inches around, also plate of fancy Bartlett pears; J. B. Ramsey, 1101 West Seventeenth street, city, large Satsuma plums, weighing four ounces each or four plums to the pound; H. C. Humphrey, North Main street, city, large tomatoes; W. J. Cheney, San Joaquin Ranch, several bushes of fine lime beans; John Culberson, city, two large summer squash, one star-shaped; Dr. J. P. Spaulding, cluster of Burbank plums from tree three years old and which yielded 100 pounds this crop; Roy K. Bishop, a jar of Duarte plums from an 18-month-old graft, very rare variety.

REDLANDS TEACHER KILLED IN BERKELEY

BERKELEY, Aug. 6.—Miss Frances Barker, for three years a school teacher at Redlands, stepped off a College avenue car at College avenue and Derby street here late yesterday afternoon and received injuries which resulted in her death last night at the Roosevelt Hospital. She was struck by an automobile owned by the Pacific Gas & Electric Company and driven by R. A. Tentis, as she alighted from the car.

Miss Barker came to this city to spend her vacation with her friends, Mr. and Mrs. J. T. Lyon, of No. 2615 Derby street, about a week ago. She had been enjoying a walk about the city in the early afternoon and took the car to the Lyon home. The fatal accident happened as she was about to step onto the street. Relatives at Columbus, O., have been notified.

GALLANTRY SAVED LIFE OF WILLIAM K. VANDERBILT

LONG BEACH, N. Y., Aug. 6.—That William K. Vanderbilt, Jr., had a narrow escape from death in the automobile accident that claimed the life of S. Osgood Pell and William Laimbeer because of the fact that he wished to protect a Parisian gown worn by Mrs. Pell, became known for the first time yesterday when he testified at the inquest held into the disaster in which the two wealthy men and their chauffeur perished.

Mr. Vanderbilt would have been in the machine that was struck by a Long Island train Sunday night had he not stopped to secure a linen duster with which to cover Mrs. Pell's gown.

IS KILLED BY FALL INTO PIT

Man Supposed to be Tom Scott of Los Angeles Met Death Last Night

A man who is supposed to be Tom Scott of Los Angeles was killed by falling down a pit at a pumping plant of the Anaheim Union Water Co. at Peralta. The accident occurred last night about 7:30 o'clock. Scott, it that he his name, had been drinking.

The man was at Anaheim yesterday, and had been drinking. He met Rochester, who has charge of the water company's pumping plant on the Santa Ana river several miles above Yorba. He told Rochester that his wife runs a lodging-house in Los Angeles, and that he was trying to get to Corona to stay with friends or relatives. He rode with Rochester as far as the pumping plant, and there Rochester gave him a meal.

Rochester left the house to attend to some of the machinery, and Scott followed him out. Scott stumbled into the pit, and fell a distance of sixty feet, and was killed instantly.

The man's remains are at Fullerton. Corner Winbigler held an inquest this morning. As yet the coroner has no information concerning the whereabouts of relatives of the man. The name, Tom Scott, is written on the back of a card found in his clothing. The man told someone that his name was Scott. He was about 45 years old, 5 feet 7 inches tall, weighed 180 pounds and had sandy hair.

CONTRACTS ARE LET FOR ITS EQUIPMENT

ORANGE, Aug. 6.—The high school board today let a contract totaling about \$5600 for furniture, machinery and other equipment for the new high school buildings, now nearing completion.

The new fire alarm system, which has ten boxes, has been completed.

Suffered Eczema Fifty Years—Now Well

Seems a long time to endure the awful burning, itching, smarting, skin disease known as "tetter," another name for Eczema. Seems good to realize, also, that DR. HOBSON'S ECZEMA OINTMENT has proven a perfect cure.

Mrs. D. L. Kenney writes: "I cannot sufficiently express my thanks to you for your Dr. Hobson's Eczema Ointment. It has cured my tetter, which has troubled me for over fifty years." All druggists, or by mail, 20c. Advertisement.

LOSES THE BALLOT BY HER MARRIAGE
Supreme Court Denies Suffrage to American-Born Wife of Foreigner

SAN FRANCISCO, Aug. 6.—Ethel C. MacKenzie, wife of Gordon MacKenzie, will not cast her vote at any elections here this year. The supreme court here today has rendered a decision denying her application for a writ commanding J. P. Hare and the election commissioners of the city and county to register her as a qualified voter.

The court bases its decision upon facts showing that, though she was born in and has resided in California, she was married to an unnaturalized citizen, Gordon MacKenzie, a native and subject of Great Britain.

"Registration has been refused her," says the court, "on the grounds that by reason of her marriage to Gordon MacKenzie, a subject of Great Britain, she thereupon took the nationality of her husband, and has ceased to be a citizen of the United States."

The court then refers to numerous decisions supporting the soundness of this contention. It declares that she was a citizen of the United States until she married MacKenzie. No event affecting her status as a citizen except said marriage has occurred since that time, says the court.

"The status of persons as citizens or aliens respectively is controlled entirely by the constitution of the United States and the acts of congress passed in pursuance thereof." It then goes on to quote numerous decisions. "Congress framed an act," says the court, "which became law on March 2, 1907. The act controls the subject referred to. It says: 'Any American woman who marries a foreigner shall take the nationality of her husband. At the termination of the marital relation she may resume her American citizenship if abroad by registering as an American citizen within one year with a Consul of the United States; or, if residing in the United States at the termination of the marital relation by continuing to reside therein.'"

"She must bow to the will of the nation," declares the court in another paragraph. "Owing to the possibility of international complications, this rule has generally prevailed from considerations of policy that the wife should not have a citizenship of an allegiance different from that of her husband."

"After congress by this act declared her marriage to an alien would accomplish her expatriation and she therefore married an alien, she is conclusively presumed to have intended to renounce her citizenship of the United States and therefore becomes a subject of Great Britain."

The decision effectively cuts off any attempt on Mrs. MacKenzie's part to exercise the rights of suffrage in California.

GOVERNMENT TO SUE OLEOMARGARINE MAKERS

WASHINGTON, Aug. 6.—Suits to recover \$800,000 of federal oleomargarine taxes will be begun soon at Chicago against prominent packers and other oleomargarine manufacturers.

Commissioner of Internal Revenue Osborne today stated that he would request Attorney General McReynolds tomorrow to proceed in accordance with recommendations of a Chicago grand jury which recently investigated the situation.

ANTY DRUDGE

Mrs. Don'tcare—"Yes, but soap is soap, and it doesn't matter which we use."

Anty Drudge—"Yes, and medicine is medicine, but it does matter which kind you take. And it is the same way with soap. Some will do the work and some won't. I know from experience that Fels-Naptha is the only kind of soap that will wash things clean in cool or lukewarm water."

"Soap is soap," said a woman. Her only idea of soap was something to mix with hot water in order to make a steaming suds.

But if she had used Fels-Naptha Soap she would have learned that Fels-Naptha is not only a soap, but a different way of washing.

Fels-Naptha Soap will do the hardest part of your washing in cool or lukewarm water.

Look for directions on the red and green wrapper.

STANTON ELECTION FRIDAY THIS WEEK

Today Deputy County Clerk Backs delivered election supplies at Stanton for holding an election there on Friday of this week to consider turning half of the incorporated city back into county territory. The vote will be upon whether or not the north half of the municipality shall be allowed to withdraw from the municipality. The south half, including the townsite, will maintain the municipality.

COURT THROWS OPEN AVALON HARBOR

Fight Won for Right of Outside Vessels to Land at Privately Owned Pier

LOS ANGELES, Aug. 6.—An opinion by Judge Conrey in Superior Court yesterday that outside passenger steamers have the legal right to land at Pleasure Pier, Catalina Island, came as a knockout blow to the contention of exclusive ownership advanced heretofore by those financially interested in Avalon.

In brief, Judge Conrey's decision means that steamers not regularly running to the island with passengers on a concession right cannot be prevented from landing.

The opinion was handed down by the court in the case of the Freeholders' Improvement Association of Avalon against Pettenger and Seaman. The defendants own the steamer Calypso.

It was argued by Attorney Meserve, for the freeholders, that pleasure pier had been constructed purely for recreative purposes. He said that the right of exclusion obtained for the freeholders for the reason that they had secured permission of the Secretary of War to extend the structure from the mainland into the ocean, and there entered into the freeholders' right a question of responsibility to the government.

Attorney Knight demanded of the court if in such cases the spirit of the government was to permit a monopoly.

Attorney Knight asserts that the decision of Judge Conrey will result in an influx of excursionists to Catalina on outside boats. He said he would not be surprised to see a cat in rates.

The right of outside steamers to land passengers at Avalon was long a mooted question. This resolved itself into an interpretation of the law which obliged the Banning interests to withdraw armed guards who had instructions not to permit a person on the island who did not come on the regularly chartered steamers.

AT THE COURTHOUSE

MADE GOOD ON
HIS PROMISES

George Schneider's Period of
Five Years' Probation Was
Ended Today

George Schneider of Fullerton made good, and today Judge West signed a release that places him again in good standing. Schneider was secretary of a lodge at Fullerton, and allowed himself to spend its money. He was unable to make up the deficit, and was arrested. In court he asked for probation, declaring that he would live right and obey the probation rules. Judge West concluded to withhold sentence for five years. That five years is up, and the order of release signed today states that Schneider has complied fully with the probation order.

For Citizenship

Theofil De Bo, a native of Belgium, who lives on R. D. 7, has petitioned for final letters of naturalization. He was born in 1856 and came to America in 1891. He is a farmer.

Petition Filed

Attorney H. C. Head has petitioned for letters of administration on the estate of Elizabeth Whitling, who died at Kewanee, Ill., in 1901. The estate here consists of lot 12, block P, Hill's addition, worth \$450. The heirs are in Illinois.

Notary's Bond

The bond of Nada Woodward of Santa Ana as a notary public was filed today.

Mothers! Have Your Children
Worms?

Are they feverish, restless, nervous, irritable, dizzy or constipated? Do they continually pick their nose or grind their teeth? Have they cramping pains, irregular and ravenous appetites? These are all signs of worms. Worms not only cause your child suffering, but stunt his mind and growth. Give Kickapoo Worm Killer at once. It kills and removes the worms, improves your child's appetite, regulates stomach, liver and bowels. The symptoms disappear and your child is made happy and healthy, as nature intended. All druggists, or by mail 25c.—Advertisement.

KICKAPOO INDIAN MEDICINE CO., Philadelphia, Pa. St. Louis, Mo.

SANTA ANA CLIMATE

DESERVES BOOSTING
SAYS W. W. ANDERSON

Several Southern California towns have recently been boasting of their temperatures during the summer. That is all very well, and Santa Ana ought to get in and say more about its temperature and climate. This was the suggestion made to the Chamber of Commerce secretary yesterday by W. W. Anderson. Anderson has been keeping a daily record, and he finds that for the month of July the maximum temperature reached each day during the month averaged 80.25 degrees, and that the minimum was 64.5 degrees. Anderson, who has been watching figures produced by other places, says that this is the best record he has seen for July. Santa Ana's climate is certainly enviable.

BOARD OF SUPERVISORS

SEVERAL CONTRACTS
ARE LET BY BOARD

F. P. Nickey Hardware Co., on a bid of \$90, secured a contract to establish a drinking fountain at the courthouse. S. Hill & Son bid \$98. S. Hill & Son, with a bid of \$507, got the contract to establish toilets in the county jail.

On the motion of Supervisor Schumacher, the \$3300 bid of A. L. Young Machinery Co. for a steam roller was accepted.

A. E. George Co. and Fairbanks, Morse Co. bid \$200 each for a traction engine for Supervisor Leck's district. The latter bid was accepted.

The petition of Bay City to re-establish a school district was granted.

Further action toward selling the Tustin school bonds, \$50,000, was postponed until Aug. 19. It is believed that local banks will eventually take up this issue.

A. B. Tiffany, county park custodian, was given a two weeks vacation.

It was decided to offer for sale a Port Huron engine owned by the county.

A Land of Opportunity

Humboldt County, the least developed in California, presents splendid opportunities to investors and home seekers. Men and money are needed for dairying, small fruit growing, truck raising, general farming and apple raising. A country of wonderful resources and ideal climate in which the first railroad is now building. All inquiries promptly answered by the Humboldt Promotion and Development Committee, Eureka, Calif.

The regular meeting of the Santa Ana Automobile Club will be held on Wednesday, Aug. 6, at 8 p. m.

CLYDE WALKER, Sec'y.

IN THE JUSTICE COURT

IDENTIFY HAT
AS HINDMAN'S

Old Derby Left in Chandler's
Cottage May Bring About
Man's Conviction

An old derby hat, soiled around the brim and slightly cracked on one side, seems likely to prove the making of D. E. Hindman, suspected burglar. The hat was found in the cottage of R. T. Chandler at East Newport, one of several cottages that were robbed last April previous to Hindman's arrest. E. W. Campbell and his wife of San Diego today identified the old hat as Hindman's.

From the time that City Marshal Porter of Newport Beach took two suit cases full of stolen articles from Hindman's room, Hindman has contended that he bought the stuff from another man. The officers were satisfied that Hindman was guilty, but for a long time it seemed probable that he might escape conviction for lack of evidence. No one saw him enter any of the cottages, which were vacant during the early spring. No where was there a clue left except at the Chandler cottage, A. V. that place an old derby hat was found. A good hat that belonged to Chandler was missing from the house. It was found in Hindman's room.

When the officers learned that the hat could be identified by Mr. and Mrs. Campbell of San Diego, a new charge was brought against Hindman, and today his preliminary examination was held. Dishes and other articles stolen from the Chandler cottage were identified as having been found in Hindman's room. Then Deputy District Attorney Koepke put the San Diego witnesses on the stand. They said Hindman boarded with them at San Diego for about a month, and he wore the old black hat that was produced in court, the one found in Chandler's cottage, left there presumably by the burglar.

Justice Cox held Hindman to answer, fixing his bail at \$2,000. Since going to jail Hindman has grown a bunch of whiskers on his chin. They are iron grey in color, and give to the man, who is well dressed, quite a distinguished look, an appearance of standing not often found among burglars.

TO REMOVE TROOPS
FROM COPPER DISTRICT

CALUMET, Mich., Aug. 6.—General Abney, commanding the state militia, is preparing to remove a portion of his troops from the copper strike district. He expects an order to that effect before night from Governor Ferris. The situation is apparently quiet. The sheriff of Houghton county is recruiting 600 deputies to aid the present deputies in the event of trouble after the troops leave.

Santa Ana Painless Dentists, 102½ East Fourth St., Main 253.

AGAINST TARNISHING AT LESS THAN
INFERIOR MAKES USUALLY SELL FOR.

OFFERS TO SELL
"PIKE" TO THE CITY

LONG BEACH, Aug. 6.—A sensation was sprung upon the citizens of Long Beach last night when Col. Charles R. Drake, president of the Long Beach Bathhouse and Amusement Company, presented a proposition to the city council to sell to the city of Long Beach the company's entire water front holdings between Pine and Cedar Way and extending south from the bluff to high tide, for the sum of \$700,000.

This includes all of the real estate and improvements, including the bathhouse and the Majestic pavilion, and only excepts the Westminster property just west of the pier and the Strand holdings between Cedar and Chestnut Ways. The bathhouse company in making the offer indicated its willingness to purchase the bonds by the city for this acquisition, paying par and accrued interest.

Col. Drake explained that the offer was made, not for fear of any adverse decision on the tide line controversy, but because the company wanted to get the beach controversy settled for all time. Col. Drake in addition has secured an option on the beach front between Cedar and Chestnut Way, which takes in the contested tide lands for which the city is striving to get possession and would be able to offer it to the city for \$75,000 additional, giving the city absolute control of its water front from Alamitos avenue to the San Gabriel jetties.

In an interview City Attorney Long intimated that if the offer was accepted, it would probably mean the withdrawal of the Strand suit now pending on appeal in the supreme court and the settling for all time of a troublesome and vexatious question. The council took no action on the matter, referring it for a report and recommendation, but the members all looked upon the proposition with favor.

BALKAN DELEGATES
REFUSE REQUEST ON
BEHALF OF JEWS

BECHARST, Aug. 6.—The peace delegates of the warring Balkan states in session here today showed no disposition to reconsider their rejection of the request by America that they insert in the proposed peace treaty a clause guaranteeing religious and civil liberty throughout the affected territory. The plea was contained in a note from the American state department. It is construed as an effort in behalf of the Jews. The American action was not known until Premier Majoresco read the note.

TO SAVE SOUTHLAND
\$750,000 A YEAR

This is Predicted Effect of Two
Recent Decisions on
Express Rates

Los Angeles Times: A saving of \$750,000 a year to residents of Southern California and the remodeling of express tariffs on understanding lines are hailed locally as the most significant results of the near-simultaneous decisions of the Interstate Commerce and State Railroad commissions ordering a reduction of express rates.

That the above yearly saving is certain was asserted yesterday by local officials of Wells Fargo & Company and the American Express Company and is based on the revenue accruing yearly to the southwestern departments of these companies. Regarding the possible resistance to the dictates of the two commissions, local express officials had nothing to say, though General Agent Mann of the American Express Company gave it as his opinion that the express companies will petition the Interstate Commerce Commission to extend the effective date of its order from October 15 to January 1.

At the offices of the southwestern department of Wells Fargo & Company, the report that the company might withdraw from California because of the sweeping reductions ordered by the State Railroad Commission was treated with levity, though it was gradually admitted that an appeal from the commission's decision may be made. General Superintendent Jones of the southwestern department is now in the East, but is expected home Monday by way of San Francisco.

One of the greatest savings to local merchants as a result of the Interstate Commerce Commission's decision, according to local officials of the express companies is the reduction of the rate per 100 pounds from New York and points west to and including Chicago from \$13.50 to \$9.85. This new rate, by the way, is \$1.15 lower than the parcels post rate.

This New York-Chicago zone, or aggregations of zones—the Interstate order provides for 350 zones—is that from which local merchants import the preponderant portion of commodities produced outside of the state. Naturally, the saving of \$3.65 per 100 pounds will rapidly amount to a huge sum during the year.

FIFTEEN MEN ON A
DEAD ENGINE'S CHEST

VENICE, Aug. 6.—Fifteen well-known citizens of Venice had a narrow escape from death yesterday when they went adrift in the gasoline schooner Orient, thirty-eight miles north of Venice, and seven miles off shore.

Having lost her rudder, the next misfortune of the Orient was the breaking down of her engine, and she wallowed in the trough of the sea until a jury rig steadied her and kept her from turning turtle.

The Orient wallowed into Venice after dark last night with all aboard safe, but rather nervous after their experience. When the rudder broke loose as a result of becoming tangled in a kelp bed, Lee Holbrook dove overboard and swam after it. With great difficulty he was rescued.

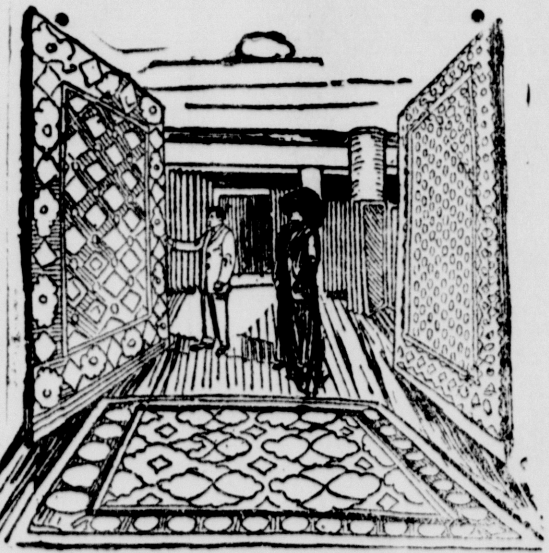

REPORT CONFIRMED

AT CHICAGO OFFICE
CHICAGO, Aug. 6.—It was announced at Medill McCormick's office that McCormick had started for New York. Miss Rosenthal, McCormick's secretary, said she had received a telegram from McCormick at Syracuse referring to a business matter, but not explaining his presence there. She said: "Mr. McCormick hurried to Chicago yesterday from a fishing trip, and then started to meet his wife at Lynn, Mass."
